Great news! It is now much quicker and easier to log-in to your Xero account ...

1. Simply copy and paste the link below into the address bar of your internet browser and hit Enter - you'll be taken to the Xero log-in page.

2. Once at the Xero log-in page, over type REPLACE_WITH_YOUR_USERNAME with your Xero username, and hit Enter.

3. You'll be taken back to the same screen but this time your username (email address) will appear in the Email box.

4. Now Bookmark this site or save to your Favourites, so now when you need to log-in to Xero, you'll be taken straight to this page with your username (email address) already entered. You'll only need to enter your password.
